Thanks Monica.

I meant to be more specific.

We met with the Rubber Manufacturer's Association. Did we meet with:

Synthetic Turf Council?  
 Safe Playing Fields Alliance?

Any other industry or NGO?

**Subject:** RE: stakeholder groups

Hi Jose,

See summary below. Detailed information is in the stakeholder outreach section of the 2016 status report  
 (<https://www.epa.gov/sites/production/files/2016->

12/documents/federal\_research\_action\_plan\_on\_recycled\_tire\_crumb\_used\_on\_playing\_fields\_and\_playgrounds\_status\_report.pdf).

- CDC/ATSDR hosts monthly calls with state public health agencies to discuss the FRAP. These calls were held to share information and updates on the on-going research and to answer questions. These calls typically have between 10 and 15 state public agencies participating.
- Between February and September of 2016, EPA met or held conference calls with: five industry trade associations, three synthetic turf field companies, two synthetic turf field maintenance professionals, one academic institution, and five non-profit organizations.
- Regular meetings with those with ongoing and planned studies including California's Office of Environmental Health Hazard Assessment, the U.S. National Toxicology Program (NTP), headquartered at the National Institute of Environmental Health Sciences, the European Chemicals Agency, and the Netherlands National Institute for Public health and the Environment

**Subject:** stakeholder groups

Hi Monica.

I think I am going to get asked this question tomorrow at the Recycled Rubber Products Tech Conference-

Can you remind me which stakeholder groups we met with?

jz
